OPERATING INSTRUCTIONS

Each vehicle requires 3 "AAA" 1.5V batteries (not included). Each remote control requires 2 "AAA" 1.5V batteries (not included). When changing batteries, adult supervision is required. Use alkaline batteries for best

For technical support, please visit www.mscustomercare.com or call 1-800-374-2744.

1. Carefully remove items from the package. Locate the battery compartment on the bottom of each vehicle, and the handle of each remote.

3. Loosen the screws and remove the battery doors. 4. Insert "AAA" batteries while observing the correct polarity in each 5. Replace the battery doors and tighten the screws. 6. Switch both the car and remote power switches to the "ON" position. The switch is on the bottom of the car.

NOTE: For best operation, operate bumper vehicle on hard surface.

ATTACHING THE RIDER

1. Insert the white peg (located on bottom of rider) into the hole on the vehicle's seat. 2. Gently press down until the rider clicks into place.

EJECTING THE RIDER

There are bumpers located on the sides of each vehicle (one on each side). The object of the game is to knock the opposing rider off of its vehicle by making contact with one of the two bumpers. NOTE: Bumpers can also be activated by walls and

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Increase the separation between the equipment and receiver.
 Consult the dealer or an experienced radio/TV technician for help. WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

• Avoid water, sand and snow when operating your vehicle. Never submerge any portion of the product in water.

• Never leave the product near sources of heat, under direct sunlight or outside overnight as this is harmful to

harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. ©2016 MerchSource, LLC.
